

Frey Technologies, Inc. is looking for an intern to continue working on an existing web site (see above) www.freytech.org/index.php. The company sells commercial pool supplies like pumps, chemicals, etc.

They would like to continue designing the website and to add content. A prior FLCC student worked with Frey Technologies for 6 months. The current website uses Flash, HTML, and PHP. The PHP is used to add a news page so they could tell their customers "stuff". The prior student was able to design it "pretty much however I wanted to and would be available to provide more information (Stephen at stve16@yahoo.com / 585-880-7676)

Timeframe: "The sooner, the better" (Summer 2008, Fall 2008)
 Paid: Yes (\$7.50 / hour)

If you are interested but can't fully start your internship now, they would be willing to have you work just a few hours now.

They are located in Walworth, NY.
